"For parents who want to give their child every advantage in life, now they can even start in the womb! I have friends that say their babies were alert and responsive at birth because of this product, and most importantly that they slept through the night earlier." **The BabyPlus Prenatal Education System**, \$150, babyplus.com

"Modern science is so amazing—I was able to share my best friend's 3D/4D ultrasound over the Internet, even though she's on the other side of the country.

The picture quality is so incredible... leaves no question—she's having a boy!"

"I'm on a kick to improve my health and one big change has been to replace all of the harsh chemicals and cleaning supplies in my house with green alternatives. My favorite brand is Mrs. Meyer's.
